Dear Customers:

We would like to take a moment to thank our customers for helping to build Total Home Construction into one of Long Islands premier remodeling company's. Since its inception in 1989, our monumental success is based upon our impeccable reputation. We are committed to implementing the latest technology in order to continually improve our quality of service.

To remain competitive and outperform others in the industry, our clients receive the quickest service possible, while maintaining the integrity and quality of our work. To help us achieve these goals, we've created a culture where every employee shares the responsibility for customer satisfaction. Every day, everywhere, every interaction is an opportunity to differentiate us and improve our value proposition. To capture these opportunities, we focus on the fundamentals - reliable and innovative products, best in class customer service, disciplined financial management, and a willingness to listen, learn and think out of the box when addressing the challenges of today's competitive environment.

Whether a project is large or small, our clients deserve and receive superior service. With our innovative and vast resources, we are responsive to your every need. Our Specialists are highly trained, reliable professionals, dedicated to your complete satisfaction.

Our showroom is located in Plainview on Old Country Road. The high quality merchandise on display in our showroom is designed to make your remodeling project as smooth as possible.

If you have any question about our company, please contact Consumer Affairs or the Better Business Bureau. And of course, references available upon request.

Sincerely,
Paul Panagiotidis
George Avgeris

Basements Since 1989

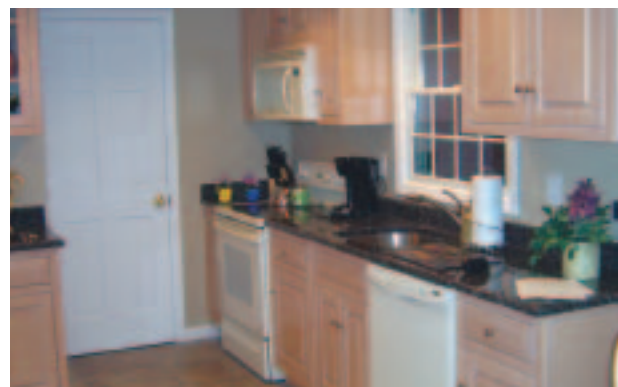

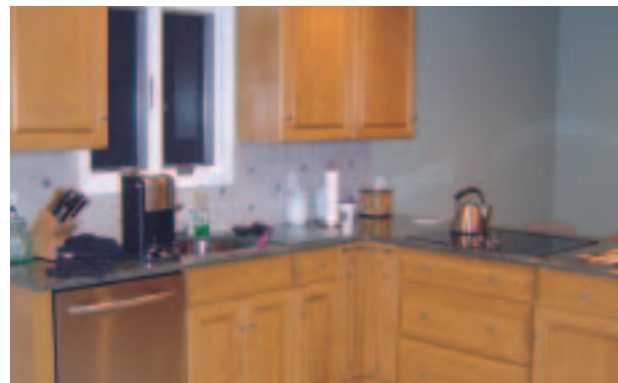

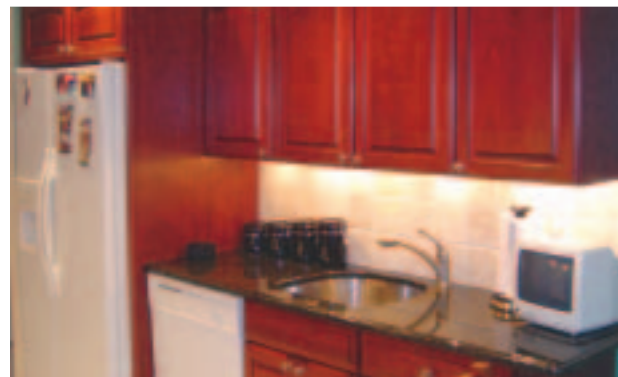

The look and feel of basements can be changed with a simple remodel. By remodeling homeowners gain several advantages: the earth, which means they're cooler in the summer and warmer in the winter, naturally insulates Basements. Moving the family room, home entertainment center, home office, or children's playroom to the basement frees up additional space in the main living area. By putting a home entertainment center, exercise area, workroom or other "activity" room in the basement, the rest of the house can be quieter and more stress free.

Extensions & Alterations Since 1989

Total Home Construction is a full service renovation firm and has been helping individuals, couples and families build a better life. We are the only source you need for design, construction, materials and appliances for your remodeling project. Our remodeling consultants are essential to the success of your project. They will walk you through each step of production — planning, designing, budgeting, selecting materials, and providing technical solutions, advise and answers to all your questions.

KITCHENS KITCHENS KITCHENS KITCHENS KITCHENS
